

Dear Verein Historische Gebäude Österreich members,

This month we are launching our new virtual project, Houses of the Month. Until December, we will present the historic houses of those private owners who are willing to participate through the broadcasting of short prerecorded videos on our social media pages, i.e. Youtube, Facebook, Instagram and Twitter. We will address a specific theme each month. The themes we will address are: Gardens, Local productions, Restorations and Traces of European history. For the first theme -Gardens- we already have three participants, while we are still looking for participants for the other topics.

Would you be interested in participating? **Please email us at:**
e.oksiuta@europeanhistorichouses.eu or m.malaspina@europeanhistorichouses.eu

Houses of the Month represents a really good opportunity for the private owners to virtually open the doors of their historic houses to the public.

To participate, all you have to do is to record a 15 minute sequence shot video, with someone (preferably the owner of the historic house) showing and presenting the house, focusing on the aspects of it which are more relevant for the topic under which you will participate. The video should be recorded in English or at least subtitled in English.

Thank you in advance: we hope you will take part in the project in large numbers!

The EHH team
